ABOUT ME

Dedicated Information Technology student with hands-on experience in video editing, multimedia content creation, front-end web development (HTML, CSS, JavaScript), and AI-assisted productivity. Skilled in data annotation using Roboflow for machine learning dataset preparation during capstone development, as well as creating engaging digital content, responsive websites, and user-friendly interfaces. NC II passer in Computer Systems Servicing with experience working as a freelance front-end developer. Experienced in using AI tools such as ChatGPT, Google Gemini, and Claude AI for research, coding assistance, debugging, content creation, and workflow automation. Passionate about delivering creative, high-quality solutions while continuously learning new technologies.

WORK & INTERNSHIP EXPERIENCE

Freelance Front-End Developer — Freelance Team **2026 – Present**

- Collaborated with a freelance development team in designing and developing responsive websites and web interfaces.
- Developed and maintained front-end interfaces using HTML, CSS, and JavaScript.
